BARBER ACADEMY

ABOUT

The Rocky Mountain state is the perfect place to take off in your career as a professional barber. But before that happens, you need the thorough education and hands-on training that a great barber academy like Bull Locks Barber Academy can offer you.

Bull Locks Barber Academy is like no other Barber School. It's fun. It's hands-on. And it's all about you. We teach only what works. Our training comes from years of worldwide experience that's left thousands of clients satisfied and Bull Locks Barbershops & Salons a success. It's the most progressive system for teaching men's hair-styling. No other school can better prepare you for the real world.

At Bull Locks Barber Academy, your future is our passion and it shows.

MISSION

Our goal is to train and prepare students in the old fashioned art of barbering, so they can enter into the profession with confidence and understanding. Starting with old school basics will help meet the modern needs of today's society as a professional Barber.

Bull Locks Barber Academy will provide you with techniques and methods that, with practice, you will gradually master in your new career as a Barber. You will be introduced to a whole new world of creative expression, technical skills and human relation techniques that will be enhanced continually as you spend time working in the profession. You will learn from real-life barbers and instructors who will share their skills and experiences with you.

VISION

The first and foremost responsibility of the Academy is to help each student reach their fullest potential. To attain this goal, we have implemented time-proven "hands on" training under the supervision of licensed barber instructors. In the school environment we duplicate the responsibilities and working conditions that students will face as a licensed barber. Instructors are always available to answer questions as they arise and to guide students through new tasks and techniques.

COMMITMENT

Our instructors have multiple decades of combined experience teaching students the refined art of Barbering. A combination of talent, extensive teaching and barbershop experience enables modern real-world barbershop experience to be applied on a daily basis. As a result, students are not only taught how to cut and style hair, but how to apply barbering to actual experiences such as working in or owning a barbershop.

OLD SCHOOL. NEW SCHOOL. WE ARE THE SCHOOL.

Specialized Skills & Instruction

Technical skills are significant in setting standards for the success of a barber. Bull Locks Barber Academy prides itself in teaching both traditional and modern techniques that have been overlooked at many other schools.

The technical ability to use scissor over comb and razor cutting methods as well as the removal of clipper guards helps students become more well-rounded in their hair-cutting proficiency.

It is our belief that traditional technical skills allow for better precision in the haircut. As a result, clients are given a more customized haircut that looks better with the shape of their head and face.

With time, haircuts enforcing these techniques are faster to perform and are more precise. In the end, students are able to achieve a superior haircut that exceeds clients expectations.

CURRICULUM

The 1,500 clock hours course required for graduation takes 10 months to complete for full-time students who attend 8 hours a day, 40 hours a week. Part-time schedules are available on a limited basis. You will learn state board requirements to attain your barber license as well as advance education in the following:
